Chase is an IT consultant in the Information Technology Services practice of Saltmarsh, Cleaveland & Gund. He provides technology and network support services for all levels of the firm's business information technology clients, including hardware and software solutions. He has over five years of experience in implementing new technologies and creating solutions to resolve information technology issues for businesses. Prior to working at Saltmarsh, Chase was a technology specialist at a regional credit union where he maintained core software programs and server management.
